1. Check your health status:
Do you have any symptoms or feel unwell (fever, cough, etc.)? If you display severe symptoms, you will not be allowed to enter the facilities and need to remain at home until you are feeling better and are sure that there is no infection risk for others. All degree programs will provide lectures in a hybrid or digital format and all WHU staff and professors are available via email or phone.

2. Traveling to Germany from abroad?
Please note that travel restrictions and guidelines are in place and are frequently being updated. It is your responsibility to be informed prior to your departure. The regulations for people entering Germany can be found here. Should you require further assistance, please contact your program team.

3. Campus access:
Access to campus is only possible during the official opening hours. Campus Vallendar is open from 7.30 am to 8 pm, while Campus Düsseldorf is open from 8 am to 6 pm.
Campus Guidelines:
Upon Arrival

The guidelines should be followed by anyone on campus at WHU in order to ensure the safety of themselves and others. Please note that as the situation is continuously evolving, our guidelines will be as well.

01 Face Masks:
- A face mask (or equivalent face covering) must be worn whenever you are moving throughout campus. Once you are seated or in a stationary position (in a study room or lecture hall) and the required minimum distance of 1.5 meters can be maintained, you may remove the mask. If this is not the case or if other specific program conditions make it necessary, wearing a face mask remains mandatory.
- All degree program students will receive a WHU mask from their respective program teams upon restarting on campus.

02 Social Distancing:
- Please keep the social distancing guidelines in mind while on campus. Unless it is otherwise indicated, please keep a suggested minimum distance of 1.5 m between yourself and others.
- When applicable, please follow the marked pathways.

03 Hand Sanitizer & Disinfection Practices:
- All facilities on campus will be regularly disinfected and cleaned.
- All rooms will ensure that fresh air circulates frequently.
- Hand sanitizer dispensers have been placed throughout both campuses in order to be conveniently and frequently used by those on campus.

04 Campus Facilities:
- In accordance with the local state regulations, the room capacities of our lecture halls on campus are highly monitored to ensure that all participants are safe. Based on its size and seating, each lecture hall has set guidelines.
- Plexiglass barriers have been strategically installed throughout campus, i.e. at the reception, in order to protect staff, students, and visitors.
- Study rooms may be used in small groups in accordance with the local state regulations and the maximum number of occupants for the respective room.

We highly encourage you to use the Corona warning app.
